

Para Nix

read entire instructions before consuming...

"Monsters Within"
Old stagnant waste material in the intestines can block proper absorption and elimination of food as well as serve as a breeding ground for harmful organisms and parasites. These unwelcome inhabitants can pollute the blood, organs, and lymph system, causing degenerative diseases.

The most alarming news is that over 60-80% of the world population has worms and parasites in their intestinal tracts.

Medical textbooks have estimated that over 150 million people in America alone suffer from intestinal parasite infection.

Over 55 million American children have worms. Once in the intestinal tract, parasites have easy access to other parts of the body where they imitate various symptoms and diseases. Even worse, it can enlarge the liver, invade the lungs, brain and skin, and can cause grave complications.

Citrus Enhanced

Citrus Enhanced is a natural quaternary compound extracted from the seed and pulp of certified organically grown grapefruit. Each white spoonful contains the equivalent of 35 mg organic grapefruit seed extract, Pseudowintera colorata extract from the rain forests of New Zealand, suma root from South America, and green papaya powder for enzymatic action and anti parasitic components.

Dosage

Citrus Enhanced is a highly concentrated and MUST be diluted. Dilute 3-5 heaping white spoonfuls (enclosed) in 6-8 oz of water 3 times per day. Children, the old, and the very sick should reduce this dosage to one spoonful once per day for the entire program. Some people take Citrus Enhanced sporadically when their gut feels "yeasty".

Moflora

Probiotics help your body to synthesize essential vitamins in the intestinal tract including B12; they produce enzymes important for proper assimilation of food, promote regularity and good gastrointestinal health, and contribute to pleasant breath. Some studies show Probiotics help with lactose intolerance and may reduce blood fat and cholesterol levels and help increase the immune system. Our formulator was Khem Shahani the World leading authority on Probiotics. On average a healthy human requires 3-4 pounds of Probiotics in their intestines. Khem stresses, the less strains of Probiotics in your blend the better your blend. This insures more of each organism in the blend. Better to have a lot of 2 or 3 strains in the blend than 10 or 12 strains. Most importantly that the Probiotics are in a FOS base which both protects them and feeds them. Khem also recommends Probiotics are to be consumed as a powder and not in pill or tablet form. Khem daily allowance of Probiotics is 10 - 20 billion per day. Khem claims the 50 or higher billion blends are a sales gimmick as the body cannot possibly absorb that much in a day. Lastly 99.9% of Probiotics come from pigs and cows even if they are labeled dairy free, because they are not legally a dairy product containing milk, cheese, etc.

Moflora consists of human specific Probiotics: L. Acidophilus, L. Bifidus, and B. Brevis. At the time of production it is guaranteed to contain 20 billion microorganisms per gram of Lactobacillus Acidophilus, Lacto-bacillus lactis, Bifidobacterium Bifidum, Bifidobacterium infantis, Lactobacillus plantarum, Lactobacillus salifarius, and Lactobacillus casei in a base of vegetable fructooligosaccharides aka FOS.

Dosage

Take 3-5 level spoonfuls (.2 grams each) with the enclosed white spoon in each Citrus Enhance Drink. Moflora can also be taken alone, with water, or with juice.

Para Mia

Homeopathic support to assist in elimination of intestinal parasites and their eggs. Chuan-Lien-Tzu, Shih-Chun-Tzu, Nan-Kua-Tzu, Fei-Tzu, Lei-Wan (all 3x, 6x, 12x, 30x). Cina abrotanum 2x, Filix mas 2x, Juglans nigra 2x, Sabadilla 3x, Spigelia marilandica 3x, Berberis vulgaris 3x, Teucrium Marum 3x, Cuprum, Metallicum 6x, Artemisia absinthium 6x, Eugenia caryophyllata 12x

Dosage

Para Mia should be administered under the tongue. The dosage is ten drops taken three times per day 15 minutes to 1/2 hour before Para Go, Citrus Enhanced and Moflora. For highly sensitive individuals you may apply to the skin (imbrication) for the first 30 days.

Para Go

These anti-parasitics are combined to support the body in ridding itself of an overabundance of parasites and their eggs; Bilva Herb, Manuka, Black Walnut Hulls, Burdock, Eclipta alba, Phanthus Embelia ribes, Fresh Ginger Root, Gentian Root, Neem leaves, Quassia Bark, Worm wood, Wormseed, Pumpkin seed, Pau D' Arco, Guggulu, Oregon Grape root, Propolis, Cinnamon, Sassafras, Echinacea.

Dosage

Para Go should be administered under the tongue. The dosage is ten drops taken three times per day 15 minutes to 1/2 hour after Para Mia together with Citrus Enhanced, and Moflora. For highly sensitive individuals you may apply to the skin (imbrication) for the first 30 days.

NOTE ON DOSAGES

Like all Ejuva programs, the Para Nix program can be adjusted for particular needs. If you are not feeling well, or are feeling uncomfortable while on the parasite program, decrease the dosages. You may feel fine while on the program and wish to increase the dosages slightly; this is fine. Each person's body will react differently while on the program and it may take a couple of days to find which amount of herbs work best with your body (and with your schedule!). If after two weeks you feel the parasites have not been cleared you may want to stay on the program for a few more days. If you have any questions while on the program contact your health practitioner or Ejuva directly or Dr. Charles Partito N.D. at EJUVA toll free 866463 5882 or charles@ejuva.com

EJUVA

Simplified Directions For Para Nix Kit

Do the following morning, noon & night

On an empty stomach

1. Place 10 drops of Para Mia under the tongue.

2. 15-30 minutes later Dilute 5 white spoonfuls of Citrus Enhanced along with 3-5 white spoonful's of Moflora in 6-8 oz of water or juice. Place 10 drops of Para Go under the tongue. At the same time, consume the Citrus Enhanced and Moflora mixture.

Repeat these steps, three times per day for at least 2 weeks, or until product runs out.

How to Take Para Nix with Ejuva Intestinal Cleanse

Start the Para Nix Program when you reach the 3rd phase of the Intestinal Cleanse. This is by far the most powerful way to consume the Para Nix program. This because the Intestinal Cleanse WILL destroy the environment in the which the Parasites thrive. Thus resulting in a much easier time eliminating the Parasites. In fact, the Intestinal Cleanse has anti Parasitical herbs in it, not only does it destroy the environment but it places the Parasites themselves in a weakened state.

1. On an empty stomach take Para Mia alone.
2. 15 minutes later take Para Go, with a little water, along with Power (3-5 tabs), Balance (3-5 tabs), and Renew (1-3 tabs).
3. 1/2 hour later take Combi shake: Combi (1-3 yellow spoonful's), with Moflora (3-5 white spoons) and 3-5 white spoonfuls of Citrus Enhanced (very very bitter- make sure it is well diluted). Stir well and consume.

STOP!!!!

Taking supplements that you don't you need. Most people simply take the supplements their favorite Author/Lecturer recommends without having any idea if your body is in need of those nutrients.

Truth is, your favorite Author has NO IDEA what nutrients your body needs and neither do you. Arbitrarily selecting supplements based on guess work is illogical. How do you know what nutrient your body is deficient? Which Minerals, which Vitamins, which Enzymes? How do you know how well your body digests and assimilates the supplements you and your author has chosen for you? How do you know when you no longer need the supplements you suspected you needed? The answer is, you don't!

America's most successful Holistic Doctor Joel Robbins and The owner of EJUVA Dr. Charles Partito N.D. who have been reversing the the so called irreversible for decades have developed a program that will answer all the above questions and a whole lot more.

Do you want to know your body's true nutritional health picture? Which supplements your body actually needs? Its simple, accurate, inexpensive and done from the privacy of your own home.

Dr. Robbins and Dr. Partito have more than 40 years of combined experience in this field and together have developed a program that will determine your body's nutritional needs without any guess work. You will be able to see first hand what nutrients your body is lacking and, just as important, when you no longer need the supplement.

Dr. Robbins and I could not understand why people would arbitrarily buy supplements based on nothing but an Authors advise. No one, not even an author can possibly know what one needs without testing. So we developed an inexpensive and highly accurate test to determine peoples nutritional needs to insure they purchase only the supplements their body requires. We call this program "Health Through the Mail" and it has helped thousands find what their body is lacking.

According to Dr Robbins consuming supplements that your body does not need actually costs the body in valuable nutrients even if the supplements are live.

To find out more about your body's deficiencies visit our website at www.ejuva.com or call us at 866 Go Ejuva (463 5882)
